

BUILDING EXCELLENCE ACROSS MULTIPLE INDUSTRIES

"People believe the sky is the limit, but here at No Limit Group, we believe there is NO LIMIT!"

Established in 2013 in Canberra by brothers Mazen and Ali Merhi, alongside their colleague Jork Vongsouthi, the company was built on the vision of creating a one-stop shop for integrated building services.

No Limit Group has carved out a strong reputation as a leader in Australia's construction, maintenance, and facility management sectors. The company has expanded into eight specialised divisions, offering a wide range of services while maintaining its family business values of integrity, quality, and continuous improvement.

A Multi-Division Powerhouse

No Limit Group operates across multiple industries in the Australian Capital Territory,

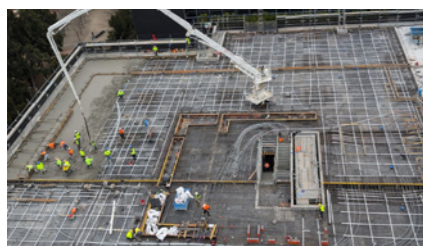

servicing commercial, residential, industrial, and government sectors.

No Limit Steel & Post Tension is a premier provider of steel fixing and post-tensioning solutions, specialising in reinforcing and strengthening concrete structures. Their expertise spans high-rise buildings, parking structures, and large-scale infrastructure projects.

No Limit Facilities handles everything from general building maintenance to full-scale

renovations, and caters to both residential and commercial clients. Services include electrical, plumbing, HVAC, carpentry, and cleaning. The team also specialises in asbestos remediation, property upgrades, and emergency repairs.

No Limit Cleaning offers high-standard cleaning solutions for residential, commercial, and industrial clients. Their capabilities include post-construction cleaning, office sanitation, and reactive cleaning services such as COVID-19 deep cleans.

No Limit Rendering & Cladding provides durable and aesthetically appealing façade solutions. Their work enhances both the functionality and appearance of structures, ensuring long-lasting protection against the elements.

No Limit Painting delivers residential repaints to large-scale commercial projects, offering spray painting, epoxy flooring, and specialised coatings, ensuring durability and aesthetic excellence.

M Constructions is the construction arm and offers custom home builds, commercial fit-outs, dual-occupancy developments, and large-scale renovations. Their team oversees projects from initial concept to final completion, ensuring a seamless and high-quality outcome.

What Sets No Limit Group Apart?

No Limit Group is known for its stringent quality assurance processes. Each project is governed by a Workplace Health & Safety Management Plan, ensuring compliance with Australian safety and environmental regulations. Regular internal audits and safety protocols minimise risks while maintaining top-tier service standards.

From advanced post-tensioning techniques to modern construction methodologies, No Limit Group embraces technology to enhance efficiency, reduce costs, and

maximise structural integrity. Their use of cutting-edge equipment and materials ensures optimal results across all projects.

With an extensive in-house team and a network of trusted subcontractors, No Limit Group adapts to client needs efficiently. Their ability to be reactive and flexible allows them to deliver projects on time and within budget, building long-term relationships based on trust and performance.

Industry Influence & Social Responsibility

Beyond delivering outstanding projects, No Limit Group actively invests in training and development for their workforce, ensuring that employees stay ahead of industry trends. Additionally, the company engages in sustainable building practices, reducing environmental impact while promoting long-term infrastructure solutions.

A Vision for the Future

No Limit Group continues to grow while maintaining its core values of safety, quality, and client satisfaction. The company remains at the forefront of Australia's building services industry, consistently pushing the boundaries of innovation and excellence.
